

Our developer has written a program, but some of the code is missing! Can you help fix the code?

```
#include <stdio.h>

int main(void) {

    int i;

    printf("+");

    for (i = 0; i < 23; i++)

        printf("-");

    printf("+\n");

    for (i = 0; i < 3; i++)

        printf("| o | X | o | X | o | X |");

    printf("\n");

    printf("| X | o | X | o | X | o |");

    printf("\n");

    printf("+");

    for (i = 0; i < 23; i++)

        printf("-");

    printf("+");

    return(0);

}
```

The desired output is:

```
+-----+
| o | X | o | X | o | X |
```

| X | o | X | o | X | o |

| o | X | o | X | o | X |

| X | o | X | o | X | o |

| o | X | o | X | o | X |

| X | o | X | o | X | o |

+-----+
