

We just showed you how to print text to the screen and in particular how to display multiple lines of text. In this activity, the goal is to print a list of skills you have already mastered to the screen.

The list of skills is the following:

```
I already know how to:
```

```
- Print text to the screen.
```

```
- Start a new line.
```

```
- Fix errors.
```

Be careful: as a C developer, you have to respect certain rules. You need to print exactly what you see in the above box!

Note

You may submit your solution as many times as you wish. Only your highest score will be kept.
