Do you know how to print characters to the screen? Do you know how to start a new line? Then you are ready to print artwork with characters!

Your goal is to display the piece of abstract art shown below, using just a single printf command.

```
* * * * *
```

```
* * | * *
```

```
* | . | *
```

```
| . . . |
```

```
. . . . .
```

Warning! The artist who created this work insists on any reproduction of the work to be 100% faithful, so you are not allowed to make any changes.

Be careful with spacing especially - if you print out too few or too many spaces your program will be graded as incorrect.

Note

You may submit as many solutions as you wish. Only your highest score will be kept.
